WHEN POLITICS RUNS THE GENERATORS

An editorial in a paper from an Indiana town illustrates what happens to the efficiency and certainty of electric service when politics runs the generators.

The plant, in that town, which is municipally-owned, operated during a number of municipal administrations without interruption—inasmuch as these administrations did not, according to the editorial, make a political plaything of it.

Then the town's government changed, and a new group came into power. Recently service was broken off twice on a single Sunday, with all the inconvenience and danger to persons and property that interruption entails. Theatres were compelled to dismiss their patrons and refund the money; filling stations with electric pumps could no longer sell gasoline; routine in the hospital was disturbed and upset. Electric pumps at the water plant were out of commission.

The newspaper, after investigation, discovered the causes of the interruptions. Trouble with the

Serra Pageant Cavalcade Will Climax Festival

The Serra Festival opening day, Wednesday, Aug. 28 which has been designated "Monterey County Day" will be celebrated by a Merienda (informal Spanish-Spanish get-together and entertainment) in the afternoon at the mission. County officials will be introduced at 8:00 p. m., followed by the play at 8:30.

Thursday, August 29 is "Historical Day," when visitors are urged to visit historic adobes and points of interest in Monterey and the rest of the Peninsula.

Friday, August 30, "Military Day," will be celebrated by military maneuvers in the kite field at Hatton Fields at 2:00 p. m. At the mission amphitheater military officers will be introduced at 8:00, followed by the Mission Play.

Saturday, August 31, "Native Sons and Daughters Day" will be celebrated by Merienda at Carmel in the afternoon. Officers of Native Sons and Daughters organizations will be introduced at 8:00 p. m., and "The Apostle of California," Mission Play, will follow.

Sunday, September 1, "San Francisco Bay Day" will climax the other days in activity. The highlight will be a Serra Pageant Cavalcade which will depict the periods covered by the Mission Play. The play ensemble, visitors and residents will join in a march to the Mission from the center of Carmel starting at 10 a. m. No automobiles will be used. Participants will march or ride horseback. A matinee of the play will be held at 2:00 and the evening performance will start as usual at 8:30.

Two masses will be held at the Carmel Mission during the festival. On Sunday at 11 a. m. will be Solemn High Mass and on Monday at 10 will be Solemn Pontifical Mass.

MORA DISCLAIMS CENSORSHIP IN STREET DECORATING

Carmel, Calif., Aug. 17, 1935.

Editor, Carmel Sun:

Dear Sir:

I read with great surprise in your issue of August 13th that I was being consulted and was passing on the authenticity of the street decorations for the coming festival.

I thank you for your estimate of my abilities, but I do object decidedly to the discourtesy of those reporting to you that I am assisting and advising on affairs I know positively nothing about. I did receive one telephone call asking me where the shield of Spain could be found and I suggested consulting Webster's dictionary. That's as far as my authority in this matter has been and will be.

All this is written with no lack of public spirit, but please realize I have just rounded out a convalescence of eight months in San Francisco, from an operation, and have so much to do with my own work that I could not assume this this responsibility even if I had been asked to do it.

The forthcoming decorations will be as much of a surprise to me when completed as to any stranger; so kindly publish this letter in fairness to everybody.

Sincerely,

JO. MORA.

Social Credit In Alberta

By E. J. ATTER

Of not merely local but of world-wide interest is the recent election in Alberta, news of which was reported on the front pages of San Francisco papers Saturday, telling of a sweeping victory by the "Social Credit" party, led by William Aberhart. What the outcome will eventually be is anybody's guess but there is little doubt but that the potentialities for the welfore of mankind are great.

William Aberhart, teacher and evangelist, founder of the Prophetic Bible Institute in Calgary, launched last spring his "Plan for Alberta" which he labels "Social Credit." Social Credit, of course, is the name by which the proposals of C. H. Douglas have been recognized all over the world for the past 16 years. The details of Aberhart's plan depart considerably from the principles of the genuine Douglas Social Credit proposals of Major C. H. Douglas, eminent Scottish engineer, who has long been personally in touch with industry, finance and government.

However, it seems probable that Aberhart, as a popular leader, as distinct from a scientific exponent, was chiefly concerned with presenting an understandable picture rather than with great accuracy in detail. To Mr. Aberhart these details are possibly not a matter of principle but quite subsidiary to the main objective of overcoming the terrible condition of poverty amidst plenty and of making economic security a reality. It is said that before the election Aberhart took the position that should he be placed in a position of responsibility as to the attainment of these objectives it is most improbable that he would either have the time or the inclination to deal with the purely technical aspects of the matter. From which we may suppose that he would wisely leave the technical details to technical experts . . . the proof of the pudding is in the eating.

The Alberta situation will be watched with great interest thruout the world, for it may be that in Alberta is dawning an era in which all people of all nations will be liberated from their present slavery to the international money masters and be free to enjoy life, liberty and the pursuit of happiness.

Automobiles Bring $30,150 to County Treasury

Improved business conditions in the state were reflected today in a report Ray Ingels, director of the department of motor vehicles, made to Governor Merriam on increased motor registrations.

The registrations in the first six months of this year totaled 2,077,-350, a record gain in the past five years and brought in $5,565,586.34 for highway construction and repair.

Half of the apportionment, $2,-782,793.17, will be given to the 58 counties, according to their registrations, for highway improvement and construction. The other half will go to the division of highways for development and repair of state roads.

The registration of motor vehicles from January 1 to June 30 was the heaviest since 1929 and every county listed a gain in the total increase of 113,464 registrations over the first six months of 1934.

Monterey county had a paid registration of 22,507 motor vehicles and has been apportioned $30,150.11.

RED CROSS APPEALS FOR CHILDREN'S SHOES

Now that schools are about to reopen, the Red Cross chapter here is faced by a need which it is unable to fill without assistance. It is for children's shoes which may have been outgrown but are not too badly worn, or that may be repaired by our Village Shoe Rebuilder. Such contributions will be gratefully received any afternoon from 1 o'clock to 3, in the Red Cross headquarters in the rear of the old postoffice building on Dolores. All sizes, up to and including high school age, are acceptable.

After attending the summer session at Stanford University, Mr. O. W. Bardarson has returned to his home in Carmel and will shortly resume his duties as principal of Sunset school.

MARION MINGES, JEAN JUILLARD TO WED

September 4th is the date set by Miss Marion Minges and Mr. Jean Juillard Jr. for their wedding. The ceremony will be performed by the Reverend Ernest J. Bradley at St. John's Episcopal chapel, Del Monte.

Miss Minges is the daughter of Mr. and Mrs. B. F. Minges of Carmel and the sister of Mrs. R. L. Hull of Hollister.

Mr. Juillard is the son of Mr. and Mrs. Jean Juillard of Monterey and the brother of Mrs. George Hotaling of Woodside and Mrs. Pat Crossen who makes her home in Montana.

Both of the young people are prominent members of the younger set of the peninsula. Following their honeymoon they will return to make their home at Hotel San Carlos in Monterey.

excitor of the main generator had put it out of service. The electric plant, however, also possessed two smaller, emergency generators. One of these was immediately started, when the shearing of a pin likewise caused it to stop. The next generator was then started, and was found to be so far out of balance it could not be brought up to speed. This left the plant entirely without facilities.

According to the newspaper, the poor condition of the equipment, and the inability of plant engineers to get it started, was due to the fact that political appointments had replaced capable men with inexperienced workers knowing little or nothing about the involved machinery they are supposed to handle. As a matter of fact, service only came on again when an automobile mechanic, by hooking up a large number of automobile batteries, was able to produce enough current to start the generator. As the editorial stated, the town "is extremely fortunate to have an automobile mechanic handy when something goes wrong at the politically-operated plant."

When politics steps in, good service steps out. As a rule, it is simply a matter of time before municipal power plants fall under the control of politicians who regard them as profitable fields for political patronage.

"The law was given by Moses, but grace and truth came by Jesus Christ," These words from John comprise the Golden Text to be used Sunday, September 1, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Christ Jesus." Included among the scriptural selections will be: "When Jesus came into the coasts of Caesarea Philippi, he asked his disciples, saying, Whom do men say that I the Son of man am? And they said, Some say that thou art John the Baptist; some, Elias; and others, Jeremias, or one of the prophets. He saith unto them, But whom say ye that I am? And Simon Peter answered and said, Thou art the Christ, the Son of the living God" (Matt. 16: 13-16).

The following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Yearning to be understood, the Master repeated, 'But whom say ye that I am?' . . . With his usual impetuosity, Simon replied for his brethren, and his reply set forth a great fact: 'Thou are the Christ, the Son of the living God!" That is: The Messiah is what thou hast declared—Christ, the spirit of God, of Truth, Life, and Love, which heals mentally" (p. 137).

CHURCH RUMMAGE SALE ON MONDAY

Annual rummage sale for the benefit of Carmel Community church began Monday morning in the Leidig building on Dolores street between Ocean and Seventh. It will last during the week until the large stock is sold.

Persons wishing to aid may bring to the church or to the rooms any of the widely varied articles which make these sales so attractive. For many years the church has conducted these sales, and they are looked upon as a typical Carmel institution.

35 Cents Pays for Everything.

We have told you often that our rates are among the lowest in the country.

•

Don't take our word for it.

•

The Federal Power Commission ranks us as being only 19th from lowest in the United States for 40 kwh of domestic use.

•

The national average rate for a kilowatt hour of electricity for domestic use is 5.3 cents. The P. G. & E. average is 4.4.

•

The national average for farm power is 2.8 cents per kwh. Our average was 1.8 cents in 1934.

"Kilowatt" is a mysterious term to many. It's a unit of power, equaling one and one-third horsepower or the power of ten men.

A kilowatt hour isn't a time hour. It's the time consumed in using a kilowatt of electric energy.

ONE KILOWATT HOUR EQUALS { A horse and a pony working together for one hour or One man working for 10 hours.

REMEMBER the first vacuum cleaner you ever used? Right then you put kilowatts to work. (Think of them either as horsepower or manpower.) Right then you decided your days of sweeping with a broom were over for all time. Electricity is, no doubt, doing the hard work of many other jobs in your home, because it does them easily and well for little money. Even a few pennies (that's little money, to be sure) will do a lot of scrubbing, beating, rubbing and churning when it hires electric servants.

4.4c for electricity will scrub 4 tubsfull of clothes, and in addition will beat batter for 2 dozen cakes, sweep 6 room-size rugs, and turn a sewing machine for an afternoon of dressmaking . . . **Honestly, doesn't electricity work cheaply?**

Even in the Orient, where labor is the cheapest, you can't hire a household servant to work ten hours for several times 4.4 cents.

CARMEL IN DARK ON POST OFFICE

Carmel is still in the dark as to its proposed new postoffice. Two years ago it was believed that the appropriation of some $80,000 had been assured, and that building would begin momentarily.

Reason for the delay, if not the permanent blockade, is not quite clear. Some Carmelites say that the money was allocated by the republicans but countermanded by the democrats. Others say that it was part of a large postoffice fund which got sidetracked.

Whatever the reason, Carmel does not know where it stands about a new office building.

Mrs. A. V. Uzzell and three children returned last week to their home in Carmel. The children, Joyce, Mary Jane and Dicky, spent their vacation on their grandmothers' ranch near Hanford, while Mrs. Uzzell attended the Caroline Swope summer school in Santa Cruz.
